Transformative Justice Coalition

presents

“TJC Voting Rights Series” for Selma Jubilee March 3, 2023 - March 6, 2023

“Voting Rights Under Attack: The Fight Continues”

Summary

The Transformative Justice Coalition (TJC) will sponsor an afternoon of powerful back to back voting rights educational and organizing events. The events will include a luncheon session, 2 workshops and a Happy Hour. Each workshop will consist of an opening speaker, followed by a panel discussion regarding the dedicated topics described below. It is proposed that all events composing the Voting Rights Series will be held on Saturday, March 4th from 12:00 p.m. until 5:30 p.m..

Saturday, March 4, 2023

Workshop #1

Program Title: “The GenZ Difference: Igniting the Flame of Voter Activism”
Time : 12:00 - 1:30 p.m. [This is a luncheon program].

The Generation Z (GenZ) & Young Millennial (YM) bloc of voters is the most diverse and progressive minded bloc of voters in American history. Moreover, as of 2024, the GenZ & YM community will represent the largest voting bloc in America. The GenZ & YM demographic is generally underrepresented in organizational efforts and focus to increase voter turnout.

This workshop will explore manners to develop, encourage and engage GenZ & YM participation in the 2024 election and beyond. This program will lift up and focus on the critical importance of developing GenZ & YM as leaders in today’s civil and social rights movement. This workshop will also discuss strategies to reach, include and involve GenZ and YM voters in political action and activism.

Workshop #2

Program Title: “Restoration of Voting Rights: The Fight for Full Citizenship of Disenfranchised Voters”
Time : 1:30 p.m. - 3:00 p.m.

It is estimated that 18 million Americans are eligible to vote, however, are unaware of their voting eligibility. The process of restoration of voting rights for citizens formerly convicted of felony crimes varies from state to state. In Vermont and Maine, for instance, individuals never lose their right to vote, even if incarcerated. In Mississippi, however, an individual convicted of one of 23 specified crimes, including theft, is forever barred from voting unless the Mississippi General Assembly passes legislation permitting the specific individual to have their voting rights restored. This wide gap in the restoration of voting rights will be discussed at this workshop. This workshop will discuss the history of Voter Disenfranchisement and will explore current state and community organizational strategies and programs to educate, elevate and encourage Disenfranchised voters to learn about their voter status.

Workshop # 3

Title : **Battling Voter Suppression, “All Voting is Local: States picking up the Baton of Dismantling Voter Suppression”**
Time : **3:00 p.m.-4:30 p.m.**

This workshop will focus on the battle to fight voter suppression across the United States. This workshop will focus on nationalizing the efforts of individual states working to pass legislation that dismantles voter suppression and protects citizens’ ease of access to voting.

The United States Congress has failed in its attempts to pass meaningful federal legislation to mandate consistent voter access to protect citizens’ right to vote. Some states, such as Ohio, have passed legislation restricting drop boxes to one dropbox per county. State Legislatures restricting access to dropboxes for voters are designed to frustrate working class voters, Seniors and Young voters from accessing voting.

Some states, such as Minnesota, are working to enact legislation to codify the voter access provisions of the proposed federal Freedom to Vote Act into law to combat voter suppression. Automatic Voter Registration, increased drop boxes, democracy vouchers and progressive voter identification measures are some of these tools used by pro-voter access states to increase participation in our democracy. This workshop will explore how to expand into a national movement these measures and strategies taken by Pro-Voter states to increase voter participation.

Ending: “Meet, Mingle & Discuss” Happy Hour (4:30 p.m.-5:15 p.m.)

The “Meet, Mingle & Discuss” is designed to allow participants to meet one another, discuss the information and ideas presented at the workshops and to consider manners to implement in their communities concepts that were presented during the workshops. This is a free happy hour with light refreshments.
